LIBRARY REPORT

It is gratifying to report that our library continues to grow in the esteem of the people as a representative part of the life of the town. 210 volumes have been placed on our shelves during the past year, making a total of 2567. The circulation has steadily increased, amounting to 8948 volumes against 8530 of last year. Part of this increase, as stated last year, being due to the assistance of Miss Anna Flint, who has continued the good work for the people of East Lyme, by visiting the library on an average of once in two weeks and withdrawing books to be held in her care at the Post Office for circulation among the people in that part of the town. Our teachers are waking up to the fact that the library contains many books of value to them and their pupils, and have shown their appreciation by withdrawing a larger number than ever before for school purposes. A large number of books suggested for use in the graded work of the schools of the state are to be found on our shelves, and additions will be made from time to time with the purpose in mind of giving the teachers and children of our town access to books of the most value to them in their school work.

There has not been quite the usual contribution of magazines during the year, although Mr. Dimick continues to furnish us with the *Outlook*. Through the kindness of Miss M. E. Cooke of Sandwich, Mass., we have been supplied with the *Geographical Magazine*.

Books have been donated by Mr. W. W. Parker, Mr. G. P. Amsden, and Mrs. Jennie Piper. Donations of full year's subscriptions to any of the standard 1912 or 1913 magazines, in good condition for binding would be a profitable and acceptable addition to the library.

REPORT OF SCHOOL BOARD

The school board have endeavored during the past year to improve the schools in Lyme School District, some of which have been greatly handicapped by the lack of modern text books.

It is advised by the school board that the District purchase new arithmetics, geographies, and histories.

It is our wish that the parents co-operate with the teachers. By so doing our schools may be made much more interesting for both pupils and teachers.

The schoolhouse in No. 9 has been replaced at a cost of $748.48.

The Chesley schoolhouse has been repaired for about $300.

The District is required by law to raise $3,414 to receive state aid, which amounts to several hundred dollars.

It is suggested by the school board that this be done, as it will greatly promote the educational resources of our town.

The Board makes the following estimate for the ensuing year:

Statutory Obligations

Money required by law	$1,567 50
Money required for high school tuition	400 00
Money required for text books and scholars' supplies	400 00

For District Meeting

Salaries of officers	$150 00
Additional school money	1,200 00
Repairs	

To be paid on district debt and interest	300 00
For insurance on schoolhouses	75 00

Respectfully submitted,

LIBRARY REPORT

The Town Library still continues to be patronized by a large majority of the families in the town. As far as possible it has co-operated with the town schools to which it has given special privileges enabling the teacher to increase the interest in good reading in school and outside. There has also been co-operation with the Ladies' Missionary Club, by furnishing reference books and other material for their literary programs. During the year, in order to preserve them for future use, we were obliged to have about fifty of our books rebound which, of course, reduced the available funds for new books, so we were able to add only 136 volumes to those already on shelves, making a total of 2,703 volumes to date. Miss Anna Flint continues to withdraw and distribute books from her office at Lyme Center for the benefit of the people in that section of the town. The total circulation for the year has amounted to 7,640, with a slight increase in the percentage of non-fiction withdrawn.

Miss M. E. Cooke of Sandwich, Mass., has continued to send us the *Geographic Magazine,* and Mr. Dimick has furnished the *Outlook.* Other magazines and periodicals have been continued from time to time and been duly appreciated.

REPORT OF SCHOOL BOARD

Another year has passed and we believe Lyme has had a very successful year of school work, teachers for all but two terms giving excellent satisfaction.

As the State is calling for grading of schools, we have hired, so far as possible, teachers who knew how the work was to be done, and the grading of all our schools has been put on a good starting basis. Only continued effort and experience can perfect the system.

Owing to the general increase in wages of good teachers and the limited appropriation, we have been able to have but 28 weeks of schooling for the year.

It has been our aim to give as good schools in one district as another, in fact, some of the district schools have had the largest attendance.

The attendance has been gaining the past year. The Stetson pupils, 15 in number, all being on the Roll of Honor for 1 term and eleven and twelve respectively, for each of the other terms. The 8 pupils of the Hewes district were also all on the Roll of Honor for 1 term, while other schools have made marked improvement. This is a great help to the schools as well as giving the district more aid from the state for attendance.

We have been pleased to notice a marked increase in interest of many parents in schools and hope the time is not far distant when all will realize what a help they may be to officers, teachers and pupils.

There were not enough funds to quite finish repairs on the Stetson school buildings, but the school room is finished and the pupils comfortable in coldest of weather.

State Supt. Morrison was so well pleased with the lighting arrangement that he asked for and has had printed in his state report a cut of the building showing the location of windows.

All occupied school houses except Acorn Hill have now been repaired and are in good condition, with the exception of minor repairs and painting.

The Acorn Hill building is in bad shape, and if to be used longer as a school home should have at least $350 expended on it, doors, windows, floor, seats, foundations, plastering, roof, all calling for help.

There are at least four school houses that it would be economy, to say nothing of looks to strangers as well as our own folks, to give at least one coat of paint the coming year.

The Roll of Honor pupils for one year, two terms, and one term are here given:
